

Welcome to the world where you see, analyze and act upon data in a radically different manner. We are transforming the way data is visualized and decisions are made.

## Benefits of the platform

- Simplified multi-touch gesture control
- High awareness with geospatial reference data
- Video content analysis
- Real time multi-video playback sync
- Threat level alarm management
- Incident management
- Effective collaboration
- Proactive response

## Where there is video ...

Buildings, IT, Industries or Infrastructure - we think video will add value to your business, allow us to help you.

### Buildings

- State-of-the-art security system
- Enhanced customer experience
- Effective collaboration
- Service management

### Industries

- Loss prevention
- Business intelligence
- Resource optimization
- Workflow management

### Information Technology

- Unified data center monitoring
- Asset protection
- System convergence
- Enhanced productivity

### Infrastructure

- City surveillance
- Intelligent traffic control
- Real time monitoring and control
- Collaboration with diverse data systems

## “Peace of mind” delivery model

We, at 2020 Imaging, are helping you deal with the explosion of data generated by modern day video and sensor systems. The per unit license based delivery model of our software gives you on-the-go deployment of video and data analytics that will give your business the much needed fillip. Our engineering services along with continued support and expert consulting will give you peace of mind that will help you focus better on your business.

## Some of our applications

## Some customers who have benefited from our platform

At one of the largest stone monuments in Asia located near Mumbai, 2020 Imaging's solution has provided people profiling, critical asset protection and proactive responses to emergency scenarios, among other benefits. With 65 cameras and 32 different analytics, the solution is now being upgraded with additional devices and features.

2020 Imaging is working with a leading handheld manufacturer and a security service provider to release a mobile app that will not only convert the handheld into a security device when in need, but will also work as an emergency response application. The security market is about to be disrupted, one more time!

602, Omega House, Technology Street, Hiranandani Gardens, Powai, Mumbai - 400 076, India.
